

# Copy Subitems Monday Integration App How To

A guide on how to install and start using our Copy Subitems Monday integrations app.

1

Navigate to install link

2

Click "Install"

On monday.com, Split That Name by Simplified Workflows will be able to:

**Read** all of your boards data

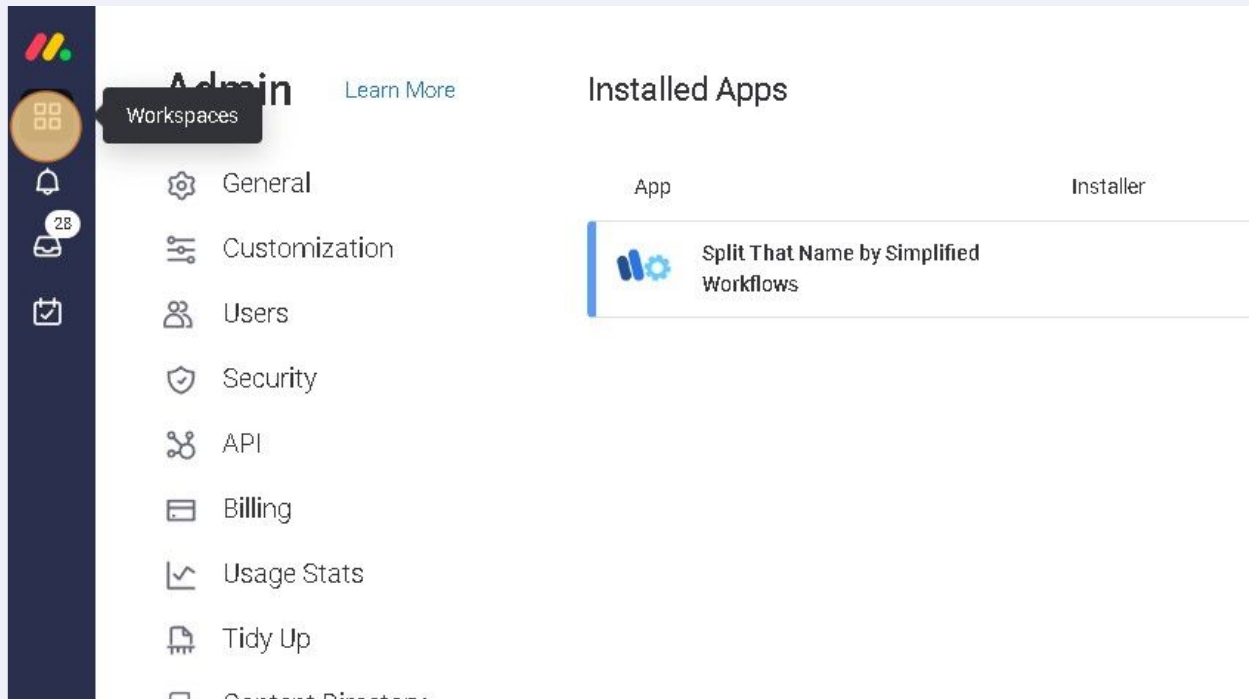

**Modify** any of your boards' data

Cancel

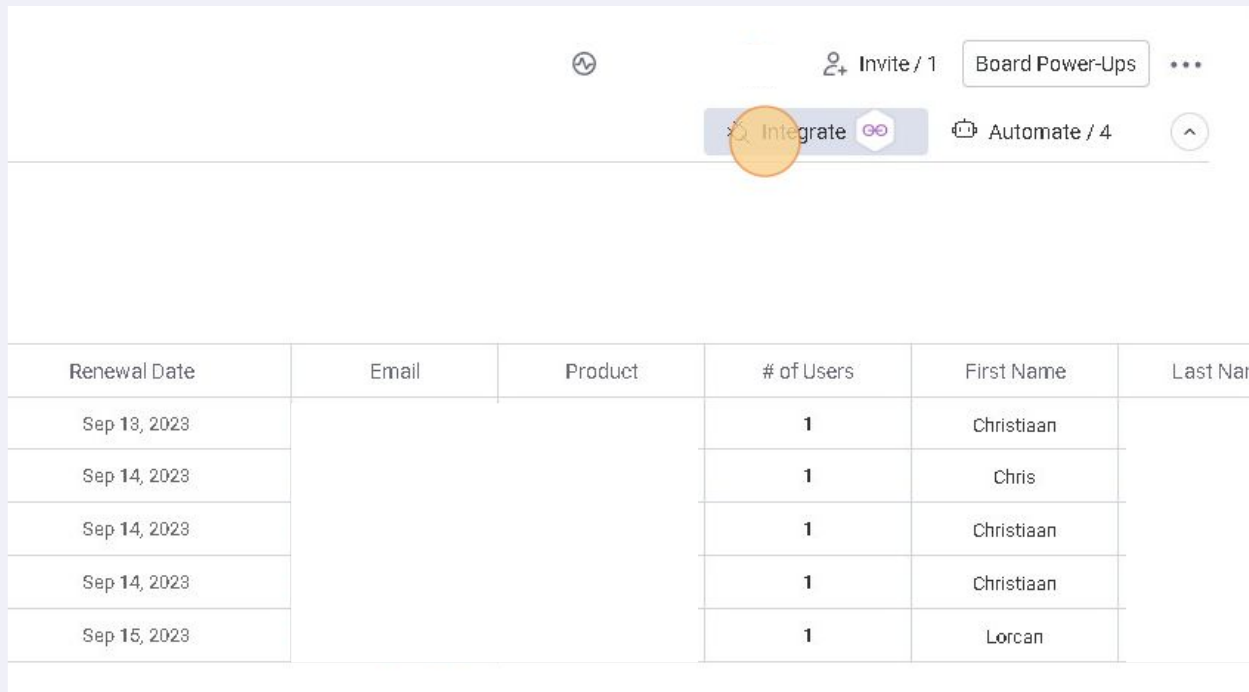

3

Click here to navigate to your workspace and choose any board you want to use the app on.

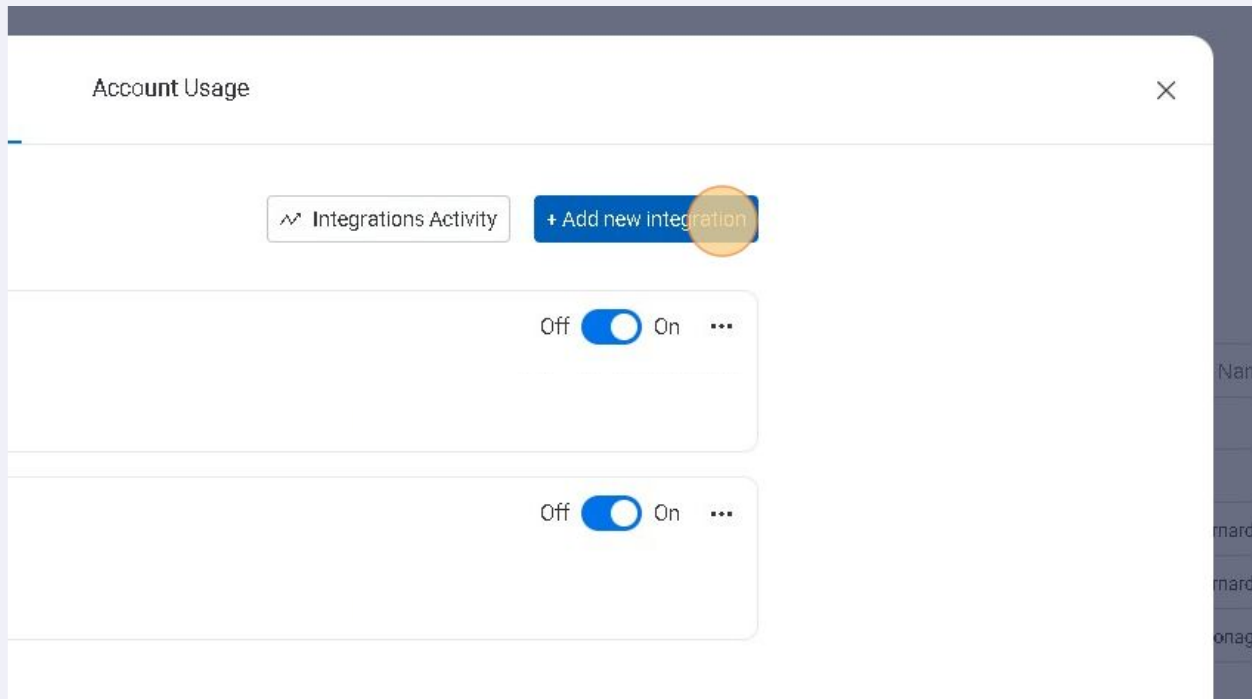

4

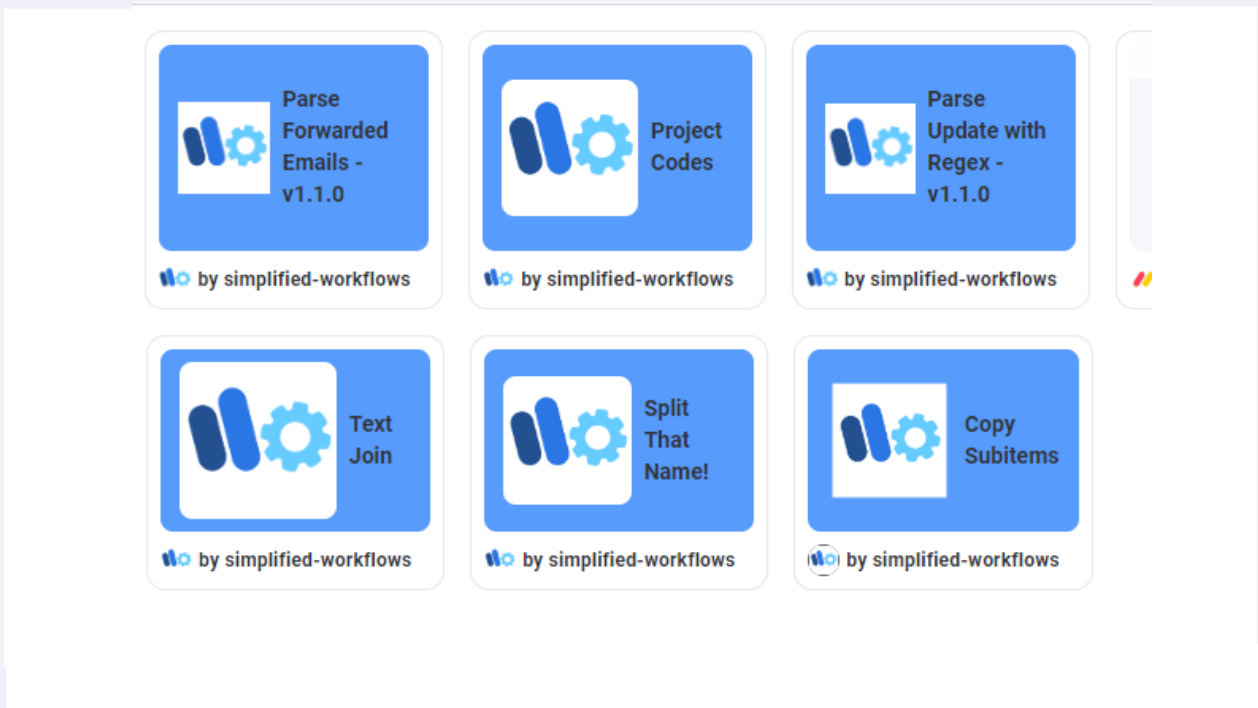

On the board you wish to add the application to, click on the 'Integrate' option or navigate to 'Board Power-Ups' and choose 'Integrations'.

5 Click "+ Add new integration"

6 Click on the 'Copy Subitems' feature.

7

Choose from one of the custom recipes as desired or go back by clicking on "Integrations Center"
